

Bill Nye, Second Growth

They say you can't see the forest through the trees
Just take a look around, and I think you'll see
The canopy, that's the top
And the floor, then the subfloor
And in between it all it's the understory

Take care of the forests
There's a lot more here than you or me
Take care of the forests, please
There's a lot more here than you or me

Animals live in the forest and much more
They live in different levels, there are four
It's an amazing place, not a bore
Which you might call ecosystem
With animals from the canopy to the floor

Take care of the forests
There's a lot more here than you or me
Take care of the forests, please
There's a lot more here than you or me

Huh!
