

Bill Nye, Time Time Time Time Time

CUCKOO!

Time it runs one way
It's at a constant rate
Twenty-four hours in a day
Determined by the sun's ray
Today, tomorrow, and yesterday
Time it runs one way (Now!)
Hey!

(Now!)
(Now!)

Alright, now the time has come (Now!) (Time!)
How does time run? (Time!)
It's based on Earth going 'round the sun (Time!)
I think time is fun (Time!)

With leap years we equalize (Time!)
The exact time the sun will rise (Time!)
Thinkin' 'bout time makes me feel psychedelized (Time!)
