

Billie Holiday, I Wish I Had You (2000)

B. Green / A. Stillman / Claude Thornhill

Joys that come to others
Seldom come to me
But if I only were Aladin
How different things would be
Every time I wish
I wish I had you
Every time I dream
The dream is for two
You're the part within my heart
That beats all day
Seems to say, "I love you";

Everywhere I go
You're all that I see
Wonder if you know
What you mean to me
Wishes would be grand
If only they came true
For every time I wish
I wish I had you
