

Billie Holiday, WHO LOVES YOU?

Davis / Cootes

Who loves you

Ask yourself the question

Who loves you, sweetheart

And tel me who thinks of you

A million times a day

And who's blue and lonely, honey

When you're away

Say, who needs you

Needs you every minute

Who fell for you from the start

Oh who just longs for your caresses

You don't have to take three guesses

Who loves you, sweetheart
