

Billy Bauer, Shades Of Grey

Shades of grey things you left behind
Cloud your mind toss and turn at night
Rain falls down deep within your veins
Fill your soul up with different shades of grey
Shades of grey
Shades of grey

Cus' I like the summer time
The fresh air with the bees outside
Cus' it makes me feel alright
And when darkness falls you look up and you see it all
We're all just different
We're all just different
Shades of Grey
Shades of Grey

So baby dry your eyes
Cus' I guarantee the sun will rise
Forget about all your pain
Cus' we're all just different
We're all just different shades of grey
Shades of grey

Cus' I like the summer time
The fresh air with the bees outside
Cus' it makes me feel alright
And when darkness falls you look up and you see it all
We're all just different
We're all just different
Shades of Grey
Shades of Grey
Shades of Grey
Cus' I like your damn good looks and your smile
Grey
