

# Billy Crawford, Friday

Written By: Billy Crawford, E. Nelson

Friday  
(It's Friday)

What we gonna do, this love is true  
We wanna be together but you're with some other guy

What we gonna do, this love is true  
We wanna be together but you're with some other guy

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

Got a sad sad feeling, goin down a lonely highway  
Even though I live for Friday  
When we will meet inside our secret hideaway  
When I see you comin in my direction  
I just can't keep my hands off of you  
Can't keep it together, ooh

What we gonna do, this love is true  
We wanna be together but you're with some other guy

(You're with some other guy)

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

What we gonna do, this love is true  
We wanna be together but you're with some other guy

(What are we gonna do?)

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

Got a bad bad feeling, that I can't go on this way  
Still I can't hang 'til Friday  
When I will hold you, love you, kiss you right away  
When I see you, the feeling just takes me over  
Can we keep seeing, believing, that we'll be together, ooh

What we gonna do, this love is true  
We wanna be together but you're with some other guy

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

(What are we gonna do?)

What we gonna do, this love is true  
We wanna be together but you're with some other guy

(I need some help 'couse it's breakin me down, baby)

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

Is it over?  
Nah

Friday...

(I need some help 'couse it's breakin me down, baby)

Friday...

What are we gonna do?  
(What are we gonna do?)

Friday...

(I need some help 'couse it's breakin me down, baby)

What we gonna do, this love is true  
We wanna be together but you're with some other guy

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

What we gonna do, this love is true  
We wanna be together but you're with some other guy

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

Can't wait another night  
Tonight I wanna love you  
I wanna love you

Can't wait another night  
Tonight I wanna love you  
I wanna love you

Friday...

What we gonna do, this love is true  
We wanna be together but you're with some other guy

What we gonna do, I'm feeling you  
We wanna be together but he's still a friend of mine  
We're outta time

What we gonna do this love is true  
We wanna be together but you're with some other guy  
(Can't wait another night)

What we gonna do I'm feeling you
