

# Billy Crawford, Part Of Me

I love you so much

A part of me wants  
to take the world upon my shoulders  
A part of me wants  
to run around for four leaf clovers  
How could it be  
that I should want these totally different things?  
You see a part of me that's safe from harm  
Can hear a future calling far away  
I'm trying to say  
That a change is coming, we both know  
And I don't know which way to go  
which way to go

A part of me is so in love  
There's a fit between us like a glove  
But we're so young with so much time  
Waiting for tomorrow's rise  
A part of me is so naive  
I believe that we can stay this free  
But deep inside I need to go  
The world ahead is calling a part of me

Ohh...

I remember  
all about the joys and troubles we have been through  
(A part of me) wants to stick around to mend those broken wounds  
(We both know) even though we fight, we're running out of time  
Time..  
The world goes on and on, despite our cry  
To stop a moment, once before we die  
You can't deny  
That the Earth is spinning round and round  
And where she stops I will be found  
I will be found

A part of me is so in love  
There's a fit between us like a glove  
But we're so young with so much time  
Waiting for tomorrow's rise  
A part of me is so naive  
I believe that we can stay this free  
But deep inside I need to go  
The world ahead is calling a part of me

The Earth is spinning round and round and round  
And where she stops I will be found, I will be found

I feel a change is coming, we both know  
I don't know which way to go  
which way to go

A part of me is so in love  
There's a fit between us like a glove  
But we're so young with so much time  
Waiting for tomorrow's rise  
A part of me is so naive  
I believe that we can stay this free  
But deep inside I need to go  
The world ahead is calling a part of me

But deep inside I need to go

The world ahead is calling a part of me

Ohhh...
