Billy Crawford, Supernatural

Feeling all alone girl
when you're not around
It's driving me crazy
that you're not in this town
There ain't no stopping me
but it's breaking me down
I know my heart would love to find someone that he found
Every day, every dream,
You, my love for you is mean
Believe me coz I want you to know

*Chorus
All I wanna do is just be with you
Ain't nothing in this world could
compare to you my love
All I wanna say
There's no need to fuss and fight
Baby everything's all right
Baby my love for you is supernatural

It really makes a difference
that you're not around
I see your reflection
all over this town
Now I really need you
and it's killing me inside
I know my heart would love to find someone that he found
Every day, every dream
You my love for you is mean
Believe me coz I want you to know

*Chorus Repeats A Few Times
