

Billy Currington, Whole Lot More

Sure feels good, sure feels right
Sure enough feels like love tonight
Ain't no movie, ain't no bar
Ain't nothin' out there beats where we are

[Chorus]
Lay back baby, catch your breath
This fire ain't as hot as it's gonna get
We're just getting' started, ain't close to done
There's a whole lot more where that came from

We've been workin' so hard, had no breaks
Gotta lotta overdue love to make
If we get no sleep, well that's okay
'Bout time me and you and me got this way

[Chorus]
Lay back baby, catch your breath
This fire ain't as hot as it's gonna get
We're just getting' started, ain't close to done
There's a whole lot more where that came from

Well, come on baby, we can't stop now
No givin' in 'til we both give out

[Chorus]
Lay back baby, catch your breath
This fire ain't as hot as it's gonna get
We're just getting' started, ain't close to done
There's a whole lot more where that came from

We're just getting' started, ain't this fun
There's a whole lot more where that came from
Yeah, there's a whole lot more where that came from
Oh yeah
