

Billy Gilman, Hey, Little Suzie (The Cause Of All That)

I remember her
Shakin' off the dust
She could walk the walk, she was one of us
When she went away, I went down that day
Tried to cheer her up, said you won't be missin' much
All that i remember when I think of her back then
Is a fast talking', fun lovin' girl we called a friend

Hey, little Suzie just got back
She's still wearin' her baseball hat
But struck out twice and came back to sit with me
The game got called on account of the weather
The rain came down and we huddled together
Thinkin' that life just couldn't get better
And when she walked away
I noticed she was lookin' back
I hope that I'm the cause of all that

An accidental touch
Never meant so much
Makes me realize
That we're not close enough
She used to talk so loud
Now she's whispering
Tryin' to draw me in
And i'm listening
She was always after something
Now I wonder if it's me
Maybe I'm just dreamin' but I call 'em as I see 'em

Hey, little Suzie just got back
She's still wearin' her baseball hat
But struck out twice and came back to sit with me
The game got called on account of the weather
The rain came down and we huddled together
Thinkin' that life just couldn't get better
And when she walked away
I noticed she was lookin' back
I hope that I'm the cause of all that

Look what she shares
When she's playin' with her hair
Tells me where she's comin' from
And that it's goin' somewhere

Well, hey, little Suzie just got back
She's still wearin' her baseball hat
But struck out twice and came back to sit with me
The game got called on account of the weather
The rain came down and we huddled together
I swear no uniform ever looked better
And when she walked away
I noticed she was lookin' back
i hope that I'm the cause of all that

Hey, little Suzie just got back
