Billy Idol, Love Like Fire

Well I met her downtown
I think we'd spoken
I think we'd spoken once before
The sound was loud
I said yeah, I said yeah give me more
And something deep inside
Started engines of desire
And y'know there ain't a chance
Of stopping love, love like fire
Love like fire

She was great so great to be with I felt so good when she was there My time was coming at me And I swore I'd never care And I thought there ain't nothing else

All the poets here are liars When you're chasing something real You get burnt by love like fire Love like fire

I thought she likes the rest
And I know I'm in control
I can take it or I can leave it
You can forget that lovers role
The world you thought you knew
Gets strangled by the wire
And you crash while running blind
Destroyed by love, love like fire
Love like fire
Love like fire
