

# Billy Ray Cyrus, A Heart With Your Name On It

Girl I've got somethin' just a waitin' for you  
That's gonna make you smile and never leave you blue  
I've carried it around waiting for the right time  
To give it to you and make you mine  
Just give it a chance and you're gonna want it  
'Cause I've got a heart with your name on it  
It beats strong and it beats true  
And you'll love the love that it's gonna give you  
You might as well take, you already own it  
I've got a heart with your name on it  
I've got a heart with your name on it  
I could feel the heat when I look in your eyes  
You were carving your name with a burning fire  
Now I'm a brand new man, branded with the thought of you  
Holding me tight the whole night through  
All you've gotta do is say that you want it  
'Cause I've got a heart with your name on it  
It beats strong, it beats true  
And you'll love the love that it's gonna give you  
You might as well take it you already own it  
I've got a heart with your name on it  
(Instrumental Break)  
Well....  
It beats strong and it beats true  
And you'll love the love that it's gonna give you  
You might as well take it, you already own it  
I've got a heart with your name on it  
I've got a heart with your name on it  
I've got a heart with your name on it
