

Billy Sawn, Everything's The Same (Ain't Nothing

You went away and left me 'cause you thought you could hurt me
But I've got news for you; I'm still strong and your are wrong
To think you'd leave and I'd turn blue;

Everything's the same
there ain't nothin' changed;
The sun still shines and the rain still rains;
And I'm still me
and you're still you
too
you see

Everything's the same
there ain't nothin' changed.

Since you've been gone
I still do what I do
no

I haven't changed a bit; I still eat
I still sleep

I still go to work and when my work-day's done I split;

Everything's the same
there ain't nothin' changed . . .
