

Billy Sawn, Just Want To Taste Your Wine

You're up in arms
when our eyes meet;
You look the other way; and this got
To get to know you feeling gets stronger every day;
You're all involved with another; you can't be mine;

But I don't want to burn your vineyards

Just want to taste your wine.
So out a little sip aside for me

'Cause my cup is runnin' over for you;
I don't know what it is he's got

But I can give you somethin' to compare it to;
And
if I lose
to your first love

He won't have to know we tried;
'Cause I don't want to burn your vineyards

Just want to taste your wine

You're doing fine
you're intended;
You took that diamond ring;
But I don't see that sparkle in your eyes
honey

That real love brings;
So look around
'fore you say those vows;
You're talking 'bout a mighty long time;

And I don't want to burn your vineyards

.....
