

# Billy Walker, It's Lonesome

I've walked a million miles across this floor and a million times I opened this door  
But all there ever is the blues hmm it's lonesome without you  
I know we just broke up two days ago but it seems a million years or so  
To get you back there's nothing I want do hmm it's lonesome without you  
If I could count high enough I'd let you know  
How many times I wished that you'd walk through that door  
And love me as only you can do hmm it's lonesome without you  
If I could count high enough...  
Oh love me as only you can do hmm it's lonesome without you
