

Binocular, Paradise Club

As I walked across the land a thousand faces came before me
And I followed it all the way from the night until the morning

Now I feel you in my mind and I feel you in my soul
You can take it all away but I'll never let you go

And if I tell you one thing I want it to be true
And if I say I'm leaving everything you knew

Now you can stop believing and start to wonder why
But you can't have it all 'till you leave it all behind

But I walked away from you when I was young and just to get away
But in time you can get through everything must have an ending
So I walked a thousand miles through the sand and stormy weather
Just to get to where I am just to get just to get back to you
Just to get back to you
