

# Biohazard, Kings Never Die

I wanna be remembered for all the things i've done  
Win or lose, i never gave a fuck if i died young  
Live fast, die young, thats the way i liked to live  
Buy now, pay later, throw away and never give

Live life, take it by the balls and never look back  
You can feel the power growing every day  
Getting stronger by the minute gonna blow a vein  
Survival of the fittest, i'm a realist  
I know where i've been, i know i will exist  
In the future i know i'm gonna be the man  
I'm gonna climb to the top and make my stand

Kings never die  
You will live forever for what you did  
Warriors never lie  
Cuz your word is all you have to give

A man's merit is measured by what he did  
No one writes a book about a failed man  
Who never lived  
Live life, take it by the balls and never look back  
Cuz when we're dead and gone the past lives on

Kings never die  
They watch over me as i fight to live  
Kings are crucified  
Evil thrives where cowards die

Never look back  
My name will never die
