Bizzy Bone, It's Only Me

[Chorus: Bizzy Bone] Let us be all we can be

Baby it's only me; nothin but mud, spirit, indeed me

Let us be all we can be

Baby it's only me; nothin but mud, spirit, indeed me

Let us be all we can be

Baby it's only me; nothin but mud, spirit, indeed me

Let us be all we can be

Baby it's only me, it's only me, only me

[Bizzy Bone]

For you, I walk in my sins

and put it out to the world about the things that I did, that I did

For you, I give 'em the paper, look at the world and the haters and watch where I cast my pearls

For you, I'll walk through the fire and the blistery winter

Constantly in prayer, even pray for the minister

For you, they can call me any name in the book

I take a look and skip the knowledge, put it on my knees brook

For you, it'll water the longer we stand in fire

When the grace and the peace and we'll never retire

For you, I'll answer your question, in a secretive manner

Very selective of the answers

I'm for you, I grind in the most righteous way

If possible if it's probable I'll give you anything you say

For you, tears they will drop like rain

I can't help it I see you hurtin it make me damn insane, for you

[Chorus] [Bizzy Bone]

From death and destruction, vivid pictures of the corpse

Nobody would tell me, I see the matrix takin a loss

And cherish your soul, the main ingredient of course

The liquor to soothe the mortal spirit, baby I'm tossed I'ma grind in the church, in the body we walkin

Our cathedral, the congregation's beautiful equal

But when the time comes my people, better be prepared

For anythang in these last days better be, aware

Smokin this purple haze, I'm goin crazy on the voices

Throwin shit inside of my brain I maintain the sickest noises

Alliance and allegiance, for the one almighty

Without the science we the faithful ready for war, y'all try me

Wicked army they could never buy me, can't even ride with me

Bitin my babies and we need the love highly

They frightening my babies but it's good cause I'm a soldier

And I'm walkin in a narrow path, baby I told you!

[Chorus]

[Bizzy Bone]

Bryon, Orion my vision I'm here to unite the fuckin aliens and angels

My solomon give me the angle

Who in the dango, pop on one of my partners, c'mon my mama armor

Flip out with the wicked dip out, I'm doin the damn thang

School by the ministers, sinister wicked to contemplate

Sinners they wanna comply with hate, baby don't even play me

I was raised by those Africans, protected by Ethiopians

And I read that grease was deep in the ruins, open yo' fallopian

Philomina my Grandmother, Masedonia Mama

Bah-bah Corinthians on simpletons fast

With the job Bone everlast, got the narrow path father

Set up shop come up out the coffin and we finna go find the grass Clash with the titans, I don't even think that motherfuckers be bitin

But I know that other fuckers be fightin

Sit this Mike Tyson missionary, dictionary rappers said Emmanuel

Fuck with the chambers and I beat that ass well

[Chorus]
