Well if the honeys think I'm stuck up,
I tell them shut the fuck up

I tell them shut the fuck up

All that she meant was good
All that she meant was good
Give her some time
Give her some room
All that she meant was good

Better keep your mouth...
I'm serious, please
Better keep your mouth closed, baby
And keep it close to your chest
I'm serious
You better keep your mouth closed, baby
And keep it close to your chest
Better keep your mouth closed, baby
Keep it close to your chest
It's best you keep....

All that she meant was good

And I'll go down that road
And I'll go down that road
And I'll go down that road

All that she meant was good

They're only weakened shouts
So grow up

Mother, I'm hungry
Mother, I'm hungry
Father, will you feed me

Father will you feed me

Lilith

You can have me
But I'll defend my child
By spring that child will die

Oh deli owowow etc.
Woo....

Moon... moon... moon...

I'm just so warm, Jennifer
and I'm coming over
to sa-bo-tage our distance

Moon will leave me on
Moon will guide me through, baby
Moon will guide me through
Moon will turn me on

I just don't care anymore
'Cause my chord is calling
It's me and truth
It's home
I'm at home with thruth alone

Moon will leave me on
Moon will guide us through
Moon will guide us through, baby
Moon will turn me on

The moon
It guides me on baby
There's absolutely no doubt

...
Me and truth
It's home
I'm at home with truth alone
