

Black, Breathing Under Water

It's the silence makes you crazy
Find the action
Need the thrill
I know you will
Amusing smiles, familiar faces
The perfect fiction
The easy pill
I know you will
I know you
Each tick off your heartbeat
Find you further from the point
You make it easy on yourself
Life could be so wonderful
Like loving in the ever after
Breathing under water
Life could be so wonderful
Like moving in the up and outwards
Breathing under water
And you live your time with strangers
To yourselves
Your aching souls
The empty holes
Drink to forget
You just remember
?Cause you have danced no honest man
Could ever dare
Each tick off your heartbeat
Find you further from the point
You make it easy on yourself
Life could be so wonderful
Like loving in the ever after
Breathing under water
Life could be so wonderful
Like moving in the up and outwards
Breathing under water
Breathing under water
