

# Black Flag, Depression

Right here, all by myself  
I ain't got no one else  
The situation is bleeding me  
There's no relief for a person like me

Depression's got a hold of me  
Depression! I gotta break free  
Depression's got a hold of me  
Depression's gonna kill me

I ain't got no friends to call my own  
I just sit here all alone  
There's no girls that want to touch me  
I don't need your goddamn sympathy

Depression's got a hold of me  
Depression! I gotta break free  
Depression's got a hold of me  
Depression's gonna kill me

Everybody, just get away  
I'm gonna boil over inside today  
They tell me son, things are gonna get better  
All I know is, they fucking better

Depression's got a hold of me  
Depression! I gotta break free  
Depression's got a hold of me  
Depression's gonna kill me
