

Black Lab, See The Sun

if i feel this feeling
if i let myself go deep again
will you stay by my side, yeah
cause when i feel this feeling
things won't ever be the same again
if planets collide i won't mind,
no i'll be fine

i can't see the sun anymore
i can't feel the drugs anymore
i can't see the sun anymore
but i don't mind
you're by my side
and i feel fine.

are you my revelation
are you the answer to my question
or have i wasted my time, yeah
cause if i feel this feeling
will you crawl out of your perfect skin
and climb in to mine will you shine
will you be my light?

i can't see the sun anymore
i can't feel the ground anymore
i can't see the sun anymore
but i don't mind
you're by my side
and i feel fine

hey michell we're too young to be alone
hey shell is your heart still made of stone
hey babe i call will you take me home
hey babe i'm calling hear me calling
