

# Black Label Society, Forever Down

Take a look inside  
The warped and the sick  
Forever born again  
Just to die so quick  
The floodgates of the damned  
Shall crash and burn once again  
Nuclear obsession  
The fall of the weak  
Atomic demolition  
Destroy all you seek  
The flood gates of the damned  
Shall crash and burn o nce again

Down down down  
Forever down

Terrified reflections  
That rip through the sky  
Apocalyptic birth  
The screams and the cries  
Floodgates of the damned  
Shall crash and burn once again  
The reverend of the grave  
The mother of the end  
The wings of the bastard  
Shall spread once again
