

Black Label Society, Say What You Will

Oh, the walking dead have rose again
Oh, hell is rolling, 'round the best
Oh yeah tried to walk away
But you kept coming back for more
Oh yeah I tried to walk away
But you kept coming back
But you kept coming back
You kept coming back for more

Say what you will
Say you want the end
Like you never
Ever had it before
I'll give you everything
Beyond the truth
I'll give you everything
And even more

Oh the graveyard rolls again
Oh kill it all and kill it again
Oh yeah I tried to walk away
But you kept coming back for more
Oh yeah I tried to walk away
But you kept coming
You kept coming back for more

Say what you will
Say you want the end
Like you never
Ever had it before
I'll give you everything
Beyond the truth
I'll give you everything
And even more
