

Black Label Society, Stoned And Drunk

Disillusioned, pure confusion
Where I'm rolling, never, never knowing

Walkin' minefields, all is surreal
Where I'm rolling, never, never knowing

Walked out of my mind
Don't wanna find, whatever's left
Poppin' pills and drinkin' booze
Smokin' everyday

Stoned and drunk completely gone
My world is here to stay

Ain't no silence, constant violence
Where I'm rolling, never, never knowing

Demolition, crucifixion
Where I'm rolling, never, never knowing

Walked out of my mind
Don't wanna find, whatever's left
Stoned and drunk completely gone
My world is here to stay

Hide my fears and kill my doubts
Whatever's in my way
Poppin' pills and drinkin' booze
Smokin' everyday

Stoned and drunk completely gone
My world is here to stay

Walked out of my mind
Don't wanna find, whatever's left
Stoned and drunk completely gone
My world is here to stay

Hide my fears and kill my doubts
Whatever's in my way
Poppin' pills and drinkin' booze
Smokin' everyday
Stoned and drunk completely gone
My world is here to stay
