## Black Label Society, Too Tough To Die

Take me through darkness Carry me through this world Insane and lost, confusion Forever always pushing for more

No, you can't cry Oh, you can't cry When you're too tough to die

This grave which bares my soul This grave which bares my name Lord I ask no questions Hold me once again

No, you can't cry Oh, you can't cry When you're too tough to die

Forever high Always high Always high Forever high Always high Always high Always high Always high Forever high Always high Always high Always high

-Solo-

Forever high Always high Always high Forever high Always high Forever high Always high Forever high Always high Forever high Always high So fuckin' high

No, you can't cry Oh, you can't cry When you're too tough to die
