

Black Lips, Workin

(Yeah) I've been working

Yeah I've been working all night long

Yeah I've been working, working til the break of dawn

I feel so tired right now

Yeah in the morning, when the evening kills the day

Yeah in the evening, the evening is the time to play

And I feel so tired right now

I feel so tired right now

Yeah in the morning, when the evening kills the day

Yeah in the evening, the evening is the time to play

I feel so tired right now

Yeah right now

Yeah right now

Yeah right now
