

# Black N Blues, Down

I have to say  
I'm getting closer every day  
In every way  
You said it right  
You gotta keep it in your sight  
Or you'll go blind

Take a moment and look around  
It's what I've found  
What's keeping me down

It's alarming, I found  
From the start I was down  
Just like everyone else  
I've got a glimpse of the light  
When I turned to the sky  
Now I think I can tell  
Tell my fate from some  
Hole in the ground  
It's what I found  
What's keeping me down

If I could be  
In control of my destiny  
What would it be?  
Oh yeah

So understand  
That what I do  
Is what I am  
Not what I can  
Oh yeah

Take a moment and  
Break it on down  
It's what I found  
What's keeping me down

It's alarming, I found  
From the start I was down  
Just like everyone else  
I've got a glimpse of the light  
When I turned to the sky  
Now I think I can tell  
Tell my fate from some  
Hole in the ground  
It's what I found  
What's keeping me down  
(What's keeping me down)  
Yeah yeah yeah  
What's keeping me down
