

Black President, Not Amused

Media media, I'm fucking sick of ya
You fill my life with bullshit trivia
Radio radio, I don't wanna know
I gotta see it for myself, I'm going to the show
We are not amused
We don't believe the evening news
We are not entertained
By the brainless, spoiled and confused
And we are not amused
Media media, I'm sick of telling ya
I've seen it all and I'm not feeling ya
Magazine magazine, tell me what is wrong with me
I'm famous and strung out in rehab at seventeen
(Do you believe in television,
Do you believe in what you see)
We are not amused
We don't believe the evening news
We are not entertained
By the brainless, spoiled and confused
And we are not amused
