Black Rebel Motorcycle Club, Open Invitation

On and on
Ive been waiting on the open invitation
You're silent show me no relation
In the rising cold
Dont you feel alone
Ill be standing with your sorrow
All you left mes gone away tomorrow
And we may never be here again
And we may never be here again
Pull me up
On either side
Dont leave me standing alone in the light
Pull me up
On either side
Dont leave me standing alone in the light

On and on
Ive been waiting on the open invitation
You're silent show me no relation
In the rising cold
Dont you feel alone
Ill be standing with your sorrow
All you left mes gone away tomorrow
And we may never be here again
And we may never be here again
