

Black Rebel Motorcycle Club, Take Them On, On

"I keep waiting to see who's gonna say the things I need to know
I keep waiting to see who's gonna say the things I need to know
I keep waiting to see who's gonna say the things am I alone
I keep waiting to see who's gonna say the things am I alone

You take them on, on your own
You take them on, on your own
You take them on, on your own
You take them on, on your own

You take them on, on your own
You take them on, on your own
You take them on, on your own
You take them on, on your own"
