

Black Rebel Motorcycle Club, Weapon Of Choice

I've got a streak, and you want to loosen up
but there's no time to feast your eyes
you want it all, but the world wont give it up
up to the edge, a star will rise

What is your weapon of choice
Whats your weapon of choice
Where is the weapon to free us all us?
What is your weapon of choice
Whats your weapon of choice
Where is the weapon to free us all?

i wont waste it, i wont waste it, i wont waste my love on a nation
i wont waste it, i wont waste it, i wont waste my love on a nation

Everyones got their own spent factions
Every bomb will pay its price
I've been digging in the wrong directions
Lets see you threaten the afterlife

What is your weapon of choice
Whats your weapon of choice
There is the weapon to free us all us
What is your weapon of choice
Whats your weapon of choice
There is a weapon to free us all

i wont waste it, i wont waste it, i wont waste my love on a nation
i wont waste it, i wont waste it, i wont waste my love on a nation

It's too hard to stand aside
Here's the love to stop your heart

i wont waste it, i wont waste it, i wont waste my love on a nation
i wont waste it, i wont waste it, i wont waste my love on a nation
i wont waste it, i wont waste it, i wont waste my love on a nation
i wont waste it, i wont waste it, i wont waste my love on a nation
