

# Black Sabbath, Johnny Blade

Tortured and twisted, he walks the streets alone  
People avoid him, they know the street's his own  
Cold blade of silver, his eyes they burn so wild  
Mean as a tiger, society's own child

Go the tiger, burn in hate  
You know you have to, Johnny Blade  
He's the meanest guy around his town  
One look and he will cut you down  
Johnny Blade, Johnny Blade

Life has no meaning, and Death's his only friend  
Will fate surprise him, where will he meet his end?  
He feels so bitter, yes he's so full of hate  
To die in the gutter, I guess that's Johnny's fate

Rivals all across the land  
He kills them with his knife in hand  
He's the meanest guy around his town  
One look and he will cut you down  
Johnny Blade, Johnny Blade  
Johnny Blade, Johnny Blade

Well you know that Johnny's a spider  
And his web is the city at night  
He's a victim of modern frustration  
That's the reason he's so ready to fight

He's the one that should be afraid  
What will happen to you, Johnny Blade?

Oh he knows his future's decided  
And he ain't gonna change it, no way  
He was born to die in the gutter  
He'll keep fighting `till the end of his days

Been alone all through his life  
His only friend is a switchblade knife  
He's the one who should be afraid  
What will happen to you, Johnny Blade?

You fool the people  
Who's fooling who?  
It's time to listen  
Who's fool are you?
