

Black Sabbath, Shot in the dark

I.

Out on the street
I'm stalking the night
I can hear my heavy breathing
Paid for the kill but it doesn't seem right
Something there I can't believe in
Voices are calling from inside my head
I can hear them x2
Vanishing memories of things that were said
They can't try to hurt me now

Chorus:

But a shot in the dark
One step away from you
A shot in the dark
Always creeping up on you

II.

Taught by the powers that preach over me
I can hear their empty reasons
I wouldn't listen I learnt how to fight
I opened up my mind to treason
But just like the wounded and
When it's too late
They'll remember
They'll surrender
Never a care for that people who hate
Underestimate me now

Chorus

II(repeated)

But just like the wounded and when it's too late
They'll remember
They'll surrender
Never a care for the people who hate
Underestimate me now

Chorus
