

# Black Sabbath, Wishing Well

Throw me a penny and I'll make you a dream  
You find that life's not always what it seems, no no  
Then think of a rainbow and I'll make it come real  
Roll me, I'm a never ending wheel

I'll give you a star  
So you know just where you are  
Don't you know that I might be  
Your wishing well  
Your wishing well

Look in the water, tell me what do you see  
Reflections of the love you give to me  
Love isn't money, it's not something you buy  
So let me fill myself with tears you cry, why?

Time is a never ending journey  
Love is a never ending smile  
Give me a sign to build a dream on  
Dream on...

Yeah, Throw me a penny and I'll make you a dream  
You find that life's not always what it seems, no no  
Love isn't money, it's not something you buy  
So let me fill myself with tears you cry

I'll give you a star  
So you know just where you are  
Someday, some way, you'll feel the things I say  
Dream for a while  
Of the things that make you smile  
'Cause you know  
Don't you know  
Oh, you know  
That I'm your wishing well  
Your wishing well  
Your wishing well  
I wish you well  
I'm your wishing well
