

# Black Stone Cherry, Big City Lights

Big city lights don't  
Shine for me no more  
You know somebody took my angel  
And now shes gone for sure

Theres a street sign on  
A lamppost where we used to hang  
Its on the corner of love and trust  
Down by the river bank  
Somehow we lost our way on  
The dark end of the street  
Now we sit here every night  
And listen to the band and  
Can you hear them say?

Big city lights don't  
Shine for me no more  
You know somebody took my angel  
And now shes gone for sure  
She saved somebody that  
Couldn't save them self  
Big city lights don't shine  
For me no more

If you ever come to our town  
Don't go where angel plays  
You know she'll take  
You under her wing  
Then she'll just fly away  
Just like she broke the heart of  
Every boy from love and trust  
Now we sit here every night  
Listen to the band  
And can you here us say?  
Listen to us say!

Big city lights don't  
Shine for me no more  
You know somebody took my angel  
And now shes gone for sure  
She saved somebody that  
Couldn't save them self  
Big City lights don't  
Shine for me no more  
No, No!

-Solo-

Big city lights don't  
Shine for me no more  
You know somebody took my angel  
And now shes gone for sure  
Yeah, she saved somebody that  
Couldn't save them self  
Big City lights don't  
Shine for me no more

Big city lights...  
Big city lights...
