

Black Stone Cherry, The Key

Out here there's a hole in the sky
Doors open to the other side
I saw a two-headed dog
Fighting over a bone
Black-haired woman
Tied into rows

I gotta take a step back
And think this through
I gotta know it's true

I gotta know that I'm
Living in a dream
Is this what it seems?
Gotta know anyone believes
How did I get lost?
What's the final cost?
Can you please help me
Find the key?

Out here, the willow tree
Down deep is where
You'll find the key
I've been here once before
Maybe in a dream
scenes play tambourine

I gotta take a step back
And think this through
I gotta know it's true

I gotta know that I'm
Living in a dream
Is this what it seems?
Gotta know that
Anyone believes
How did I get lost?
What's the final cost?
Can you please help me
Find the key?

-Solo-

Out here, the saying goes
Off with the lights
And on with the show
Once it's dark
The children play
They all join hands and
Dance around the grave

I gotta know that I'm
Living in a dream
Is this what it seems?
Gotta know that
Anyone believes
How did I get lost?
What's the final cost?
Can you please help me
Find the key?
Find the key
