

Black Swan, Miracle

Somewhere in the night
I could hear you calling to me
It was cold it was dark
I could see their shadows surrounding me

Faster now but not fast enough
As the rain beats down I could feel your touch
And the shots were fired somewhere to my left
I felt the pain as I fell in it's path

Gonna' take a miracle
As I look to the sky life passes me by
I know it sounds so cynical
As I fade from the light it belongs to the night
It's gonna' take a miracle

I'm sorry my love
That I won't be making it home
We had plans but their guns
Have taken my life and left you alone

Faster now but not fast enough
As the shots rained down I couldn't feel your touch
I could hear you scream hear you calling my name
I felt the pain as I heard you say

Gonna' take a miracle
As I look to the sky life passes me by
I know it sounds so cynical
As I fade from the light it belongs to the night
It's gonna' take a miracle

I never got to say goodbye
I thought for sure in your arms I'd die
But now you're mourning at my returning
And every word it end's with why

Gonna' take a miracle
As I look to the sky life passes me by
I know it sounds so cynical
As I fade from the light it belongs to the night
Gonna' take a miracle
As I look to the sky life passes me by
I know it sounds so cynical
As I fade from the light it belongs to the night
Oh it's gonna' take
It's gonna' take
It's gonna' take a miracle

I'm sorry my love
Somewhere in the night
Cold, it was dark
Life just passes me by
I'm sorry my love
I'm sorry my love
