## Blackfield, 1,000 people

A thousand people yell They're shouting my name But I want to die in this moment I want to die And a thousand people smile They're smiling at me But I want to die in this moment I want to die No way to understand Why I've become the way I am When the sky is filled with stars I find a place inside my heart Some people can take a blow And they won't ever drop But I want to die in this moment I want to die She will tell me she loves me That she won't ever stop But I want to die in this moment I want to die The coldness in my soul And I reach out for her to hold And then I watch her close her eyes It's only me that needs to cry And if I stay with you Do you believe that I'll pull through? No way to understand Why I've become the way I am When the sky is filled with stars I find a place inside my heart And then I watch her close her eyes It's only me that needs to cry A thousand people yell They're shouting my name But I want to die in this moment I want to die
