

Blackfoot, Searchin'

Well, I'm walkin' on a road that
ends when I'm gone
Lawd, I'm runnin', yeah, from all the things
I fear the most
I need some directions on how, that I can find my life
Well, I'm just like you, I Lawd, I'm searchin'

Well, they tell me that a man must crawl before he can walk
Yes, they told me, oooh. you gotta cry before you can talk
I've done me enough crawlin'
It made me moan and cry out loud,
Are you with me now?

Chorus:
Searchin' for the life you cannot find
Searchin' for the one you left behind
Gotta give me a reason, show me your light
Stand up and fight for yourself
Oooh. are you searchin'

Can you remember when you were young, you had your fun
And your first love stole your heart, maybe tore it apart
And did you pick up the pieces
Right or wrong, were you strong to fight?
Well, I was just like you, I....

Chorus:
Searchin' for the one you cannot find
Searchin' for the one you left behind
Searchin' for the one you left behind
Gotta give me a reason, show me your light
Stand up and fight for yourself
