

Blackhawk, Ships Of Heaven

Don't cry for me when I'm gone
Keep the faith and be strong
Cause through it all I've been blessed
I've faced my fears and passed the test
When you look up in the sky on a sunny day
Imagine me driftin' away

{Chorus}

I'll be sailing on the ships of heaven
When the tide rolls out for the last time
You'll find me sailing on the ships of heaven
Waiting for the day I come sailing back to you

Remember all the times we had
Some were great some were sad
But ya know that in the end
Our love was stronger when we began
No unforgiven sins and no regrets
Just the times of our lives we will never forget

{Chorus}

I'll be sailing on the ships of heaven
When the tide rolls out for the last time
You'll find me sailing on the ships of heaven
Waiting for the day I come sailing back to you

When the tide rolls out for the last time
You'll find me sailing on the ships of heaven

Waiting for the day I come sailing back to you
On the ships of heaven
I'll come sailing back to you
I'll come sailing
I'll come sailing back to you
Oh yeah
Sailing On The Ships of heaven.
