Vespertilionis

Downfall the white shattered glass heart

The infernal birth to another Hell on Earth

Tearing the white veil from the Christian's grace

A fearful portrait inundated the soul

Poisoned henna on the flesh to cut the Heaven

Mystic creatures from the dark nights

The tribes of Christ will not forgive

They'll suffer enough to live on Earth

From the dark side

In origin of the eternal sin

Opaque crystal eyes of a fugitive god

That giving head

Died amongst the dirt

In nightmare fit to dislike Christ like a vermin

Signum Deus Macabrum

Unholy gift from black circus of Satan

An anthropophagous father of your own son

The coming of great Satan's empire

Guillotines and mantras from unbiblical nightmare

An anthropophagous father of your own son

The coming of great Satan's empire

Vespertilionis

Luciferi pater regis

Immitis natura strix

Broken glass cutting into flesh

Needles into eyes
