

Blackpool Lights, Empty Tank

We'd drive all night
On an empty tank
Holes in our pockets
And all the tapes were blank
So we turned on the radio
Had the windows cracked
With nothing behind us
We would never look back
Yeah

We are the ones
Who never get noticed
We are the ones
Who are always shot down
We are the ones
When nobody would want us around
Baby it's a long way

We'd watch the sunrise
On a nameless street
Dust in the ashtray
And nothing left to eat
So we packed up our bags to leave
Desperation and doubt
If we crawled back now
We would never get out
Yeah

We are the ones
Who never get noticed
We are the ones
Who are always shot down
We are the ones
When nobody would want us around
Baby it's a long way down....

It's a long way
For running, from nothing
When we're just the victims of circumstance
You were tired of driving
I'd let you sleep
Short nap with a long dream
Yeah, Yeah, Yeah

We'd drive all night
On an empty tank
Holes in our pockets
And all the tapes were blank
Yeah

Chorus
