

Blackstreet, Misery

Baby, I don't know what the problem is

This house is empty
I need you in
Abandoned home
It gets so lonely
Tell me what's wrong
(all hope is gone)
I can't go on

Been occupied by your memory
Three words explains the way I'm feelin'
I need your love
I can't go on in misery
(I can't go on)
I can't go on in misery, yeah
I can't live without you
I need you

Whooooaaa, I can't go on living alone
Without your love
I can't go on this way
Not without you baby, in my life
In my life

Something about the way you love me
You complete me
I need you
Dont' take your love away from me
I don't wanna live in misery
I can't go on
No
All hope is gone
I can't live without you
I need you
Don't take your love away from me
