

# Blake Babies, Star

You ring me up and you bring me down.  
I never know if you'll come around.  
I like the salty taste in my mouth.  
Ten minutes on the lips, ten days without.

If I were a star,  
Would you look at me when you're lying there in the dark?  
If I called on you from far away,  
Would you say the things I want you to say?

What would you say if I shined at night?  
If everyone wanted a piece of my light?  
Would you say the name?  
Would you finally be the guy who can't get enough of me?

If I were a star,  
Would you think of me when you're lying there in the dark?  
If I called on you from far away,  
Would you say the things I want you to say?

Just think of what I could be and not what I am.  
The envy of every woman, the dream of every man.

If I were a star,  
Would you look at me when we're lying there in the dark?  
If I called on you from far away,  
Would you say the things I want you to say?
