

Blanks 77, Crash & Burn

uptown downtown
been around all around
nothing left to say
take a ride suicide
here i come step aside
get out of my way
Its okay i feel alright
citys gonna crash and burn tonight
its okay I feel alright
crash & burn tonight

drag queens striptease
anything that you please
under the bright lights
night clubs get drunk
shootin junk lady luck
i'll see you tonight

coulda been shoulda been
washed up has been
all around the town
take a ride suicide
here I come step aside
tonight your goin down
