

# Blanks 77, Punks and Skins

They say our glory years have come and gone  
but what do they know, them fuckin' cunts  
things will never be like they were before  
that's what they say as they walk out the door  
but the young ones,  
we shoot straight from the heart  
we're gonna finish what we start  
we're gonna unify  
punks and skins never say die

[Chorus:]

punks and skins wear boots and braces  
punks and skins wear angry faces  
punks and skins ain't gonna fight  
punks and skins never say die  
The time to have fun has come at last  
no more fightin', what a fuckin' blast  
if you don't hate me, I won't hate you  
cuz we're both the same, me and you  
when the nazis come, we're gonna fight  
you and me, standing side by side  
we're gonna unify  
punks and skins never say die

[Chorus]
