

Blaqbonez, Like Ice Spice

Yeah, uh

If you think this song about your girl, then it is
It is what it is, uh
And the pipe wey dey run her water, no fit cease
It is what it is, oh

Me realize, they should legalize
If you fit whine, whine-ayy-ayy
Then I realize I soliloquize
No dey follow lies, body no go die

We the big boys and we outside
Dripping like ice and we on sight
Emeka must shine, Kele must whine
When she go down, look like Ice Spice

She like to party late, I don't castigate
I just facilitate, I voice active
Congratulate, her life, appreciate
E make her anticipate
Take her back to me place
We start to fornicate
Her leg start to dey shake
Phone start to vibrate
Her boyfriend dey suspect
I dey assassinate
I discombobulate

Me realize, they should legalize
If you fit whine, whine-ayy-ayy
Then I realize I soliloquize
No dey follow lies, body no go die

We the big boys and we outside
Dripping like ice and we on sight
Emeka must shine, Kele must whine
When she go down, look like Ice Spice

How long pull up and playback again
How long pull up and yuh playback again
How long pull up and yuh playback again
[?] big chune them

Me realize, they should legalize
If you fit whine, whine-ayy-ayy
Then I realize I soliloquize
No dey follow lies, body no go die

We the big boys and we outside
Dripping like ice and we on sight
Emeka must shine, Kele must whine
When she go down, look like Ice Spice
