

Blaq Audio, Bitter. For. Sweet.

Can you tell me what stopped the rain
Where is salvation
Science, saviors, tragedy
May I lead way
Into temptation
Sirens screaming just for me
And the void remains

Would you save, would you save my life
If you knew, if you knew why
This is the last time
I'm leaving without you
In silence, in silence
Could you save my life
Had the boy that you knew not lied
This is the last time
I'm leaving without you

In silence
In silence

Can you tell me what stops the pain
Some medication
Science, saviors, tragedy
How deep must we cut
To reach temptation
Find it, bring it back to me
Where the void remains

Would you save, would you save my life
If you knew, if you knew why
This the last time
I'm leaving without you
In silence, in silence
Could you save, could you save my life
Had the boy that you knew not lied
This is the last time
I'm leaving without you

In silence
In silence

Walk with me
My one and only
Find with me
The end
The end, oh

Walk with me
My one and only
Silence

Would you save, would you save my life
If you knew, if you knew why
this is the last time
I'm leaving without you
In silence, in silence
Could you save, could you save my life
Had the boy that you knew not died
This is the last time
I'm leaving without you

In silence
In silence

If you knew
If you knew

Would you save me

Can you tell me what stopped the rain
Can you tell me what stopped the rain
Can you tell me what stopped it

If you knew

Would you save me
Would you save me
