

Blaze Bayley, The Day I Fell To Earth

I thought I stood on solid ground
but I was floating near the stars
And never once did I look down
I was Falling Down and how far..

To a place I cant even say my name
I'm the alien the drifter I'm to blame

The day I fell to earth

I fell to earth thought I was dead
but I was brusied and I was scared
I took the time to look around
I started climbing and how far

To a place where I am shouting out my name
I'm the alien the drifter I'm to blame

The Day I fell to earth
